Afriquetone Limited provides and runs interactive workshops for corporate events.

We use interactive rhythm workshops as a tool to align people to a common purpose.

Our workshops take you through an experience that highlights the necessary attitudes and considerations that guarantee effective communication and team work in a short time.

They also demonstrate the chaos resulting from insufficient or ineffective communication and necessary actions to get it right.

Training Events such as:

Competence training

Safety communication training

Assurance training

Leadership training

Team-building sessions.

Staff away days

A group activity as that is a lot of fun, keeps everyone engaged and is memorable.

Seminars and Conferences

Ideal for opening or closing seminars and conferences

Perfect ice-breakers

Break away sessions.
